

Pay for Performance Data & Tools at Your Fingertips

Shareholder Engagement

Confidently Engage with Your Shareholders

Publicly traded companies and top institutional investors rely on Equilar's Pay for Performance analysis to assess and measure alignment. Equilar's Governance solutions assist companies with powerful tools to analyze, measure and prepare for how pay strategies will be viewed by government entities, institutional investors, and the public.

Features

- Pay for Performance (ISS, Glass Lewis Modelers)
- Total Shareholder Return
- Glass Lewis Proxy Papers
- Additional Share Request
- Shareholder Value Transfer
- Equilar Market Peers

Benefits

- Empower your decision makers with in-depth analysis on financial and pay metrics that have a direct impact on Say on Pay and additional share request voting results
- Obtain a more accurate and complete pay picture with realizable pay data
- Forecast and model ISS & Glass Lewis pay for performance analyses
- Identify objective peer groups using the Equilar Market Peers independent algorithm (used by top institutional investors and Glass Lewis)
- Access to ISS projected market peers and realizable pay data
- Conform to the new SEC Pay vs. Performance ruling
